

PAL PROCLAMATION

PEOPLE. ANIMALS. LOVE By Ms. Lilly, Assistant Site Coordinator

WHAT HAPPENED THIS MONTH

This April was focused on butterflies. We learned about the life cycle of a butterfly and created some masterpieces to exemplify the symmetrical dynamic of them. Our older scholars made mobiles to hang with the stages of a caterpillar's life.

We were also visited by a few animal friends. Students learned about frogs, lizards, and snakes from Ms. Melissa from Critters and Conservation. We also met Ms. Alisha who introduced us to safari animals throughout the world, including a tortoise, chinchilla, and a parrot!

Next month we will be learning about chickens and the incubation process from egg to chick. We will have incubators with eggs and chicks, so scholars can see the development of life inside of the egg. Get ready for your child to come home with an extensive amount of knowledge about eggs!

Here's K'yla feeding a tortoise!

FUN FACES OF PAL

Ms. Harley is our "Fun Face" this month!

This is her first year working with PAL as the 3rd grade teacher's aid. Ms. Harley has consistently shown us what it means to be an attentive and thoughtful teacher. She helps scholars complete their PAL lessons and is enthusiastic to teach students about animals. We at PAL are very grateful to be able to call her a friend and coworker.

Next time you see Ms. Harley, be sure to smile and wave!

PAL Student of the Month

The Student of the Month is awarded to the scholars who show the most enthusiasm to participate in our PAL lessons. We hope that by acknowledging our students' efforts, they will be encouraged to positively interact with the animals, staff members, and other students. Congratulations to the following students for being exemplary scholars with PAL!
